Disaster Home Repair Program

Thank you for your interest in Fort Bend Habitat for Humanity's Disaster Home Repair program. Fort Bend Habitat for Humanity's work through the Disaster Home Repair Program will include repairs related to flood damage, and other health and safety home repairs. Though FBHFH recognizes the dire situation created by the catastrophe, there will likely be a waiting period for repair work to be started and completed.

Eligibility Criteria for the Disaster Home Repair program are as follows:

- You must own the home where the repairs are to be made.
- You must occupy the home as your primary residence.
- You (or a member of your household) must have a need that makes the requested repairs necessary.
- Your household income must fall between 30%-60% of A.M.F.I. (Area Median Family Income). *See income guidelines listed below on page 2.*
- Those receiving services must be present during the duration of the repair work.
- Applicant must demonstrate willingness and ability to pay for a percentage of the project cost through FEMA and/or insurance (See below)

(These criteria are subject to change.)

Homeowners will have to pay for Disaster Home Repair services as follows:

- FBHFH will utilize FEMA and/or insurance funds as the primary source of funding for the project. FBHFH recognizes that primary sources may not cover the entire scope of work to be completed. Once primary sources are exhausted, FBHFH will seek additional funding to complete the scope of work. The homeowner may not be required to reimburse the cost of repairs. All financial options will be presented to the homeowner prior to work being started.
- We may only be able to commit to part of what a house needs
- No promises of acceptance into the program are made, until a binding agreement is fully executed
- Cost for project will include materials and contracted labor, and a processing fee
- Homeowners will be required to sign a contract of services with FBHFH before work will begin
